Dr. C. W. Littlefield, of Alexandria, Ind., now comes to the front and says that he has created life atoms or animated germs through a solution of common salt, pure water, alcohol and ammonia.

Charles M. Schwab is said to be in Philadelphia masquerading under an assumed name. He is in charge of his physician and is endeavoring to regain his health, which he lost, says the Columbur *Enquirer-Sun*, due to the exertion of drawing his million dollar salary.

Lying in an incubator in the Post-Gradute Hospital, at Second Avenue and Twentieth street, Philadelphia, is a tiny mite of humanity in the form of a girl baby which weighs only thirteen ounces. The baby was born last Thursday to Mrs. Bertha Moses, says the Philadelphia *Press*.

The new battleship King Edward VII, the largest in the world, was successfully launched by the Princess of Wales at Devonport last week. The vessel cost $7,500,000. She is of 16,350 tons displacement, and is 425 feet long, has 78 feet beam, has a draught of 26½ feet and has 18,000 indicated horse power.

The gateway to the St. Louis Exposition promises to be a daisy. Chief Designor Masqueray is now engaged on plans for it, which will be at the north end of the grand court. The structure will be 70 feet high, 300 feet long and 60 feet wide. It will be in the shape of a capital U, and will cost when finished about $40,000.

A young woman in breeches is the latest freak from Booneville, Miss. Miss Winnie Ray has been masquerading in that community for about eight years as a man without being suspected even by the most intimate neighbors. The other day a young farmer, thinking she was a man, gave her a genteel flogging for being too intimate with his wife. At the trial, attired in her trousers, she created a profound surprise by declaring that she was a woman. And she continues to wear her pants.

HOTTEST OF THE SEASON.

Thermometer Climbed to Ninety-six Yesterday, Breaking the Record for the Year by Two Degrees.

Whew! Wasn't it hot!

Yesterday was a scorcher; the hottest day of the year. All records for the season were broken by two degrees. The ordinary inhabitant sweltered and commented; commented some more and sweltered. He didn't need the official thermometer to tell him that he was suffering the tortures of nearly a hundred degrees Farenheit.

However, official figures are the only ones to be relied upon and Observer Felger, at the Weather Bureau, was asked last night as to the pranks of his instruments under the strenuous efforts of Old Sol during the day. "We had 96 degrees," he said, "the highest of the season. The nearest approach we have had to it before this season was 94, Sunday a week ago, the 19th." Mr. Felger said the heated period opened early in the morning with a minimum of 72 degrees and from that time the mercury continued to steadily rise until between 1 and 2 o'clock, when the maximum was reached. Then it hovered close about 96 until 3 o'clock in the afternoon. A faint breeze came as a relief and about 6 o'clock a light shower cooled the atmosphere to some extent, but it was still hot. Last night there was a fine breeze and occasional thunder heads, which brought greater relief. We are promised to-day and to-morrow fair weather with light, variable winds.

LOCAL DOTS.

— An excursion from Conway, S. C., and other points was here yesterday, returning last night at 10 o'clock.

— A handsome granite shaft is being erected at Lexington to the memory of the late Dr. W. C. Norman who died suddenly in this city during the North Carolina Conference last December.

— A correspondent writes the STAR of the sudden death of Mr. M. J. Ward, which occurred suddenly in his field at Wampee, S. C., Friday at 7. A. M. Mr. Ward's death was due to heart failure.

— Plans and drawings for the proposed new hotel on "The Hammocks" at Wrightsville beach are on exhibition at Yates' book store. The plans and specifications are by Mr. Harry Bacon, of New York.

— Jno. B. Oliveras, the alleged defaulting cashier of the A. C. L. at Savannah, was placed on trial there yesterday. The amount of his shortage was $5,883.74, extended reference to which was made in these columns at the time of his arrest.

— The W. C. T. U. will hold its regular meeting Wednesday afternoon at 5 o'clock in the lecture room of the First Baptist church. A full attendance is urgently required, to make preparation for a public meeting.

— The fare to Carolina Beach every Wednesday night for the mid-week dance will be 20 cents for the round trip. Thursday night steamer "Wilmington" will run an excursion up and down the river; fare 15 cents.

— By deed filed for record at the Court House, Mrs. Sallie B. Maffitt transferred to The Suburban Land Co., for $3,700, tract of land containing 212 acres on Greenville Sound, bounded by Lee's Creek and lands formerly owned by J. D. Jones.

— The police committee, Mayor Springer and Aldermen Moore and Gafford, was in session until 7 o'clock yesterday evening, investigating charges of improper conduct against two policemen. The evidence was not all in at the hour named and a recess was taken until 6 P. M. to-day.

— The maximum temperature at Wilmington Sunday was 91 degrees while the average for the district was 95. Newbern was as cool as Wilmington but at no other point did the mercury stop short of 93. Charlotte, Cheraw and Greensboro recorded 94, Goldsboro, 95; Raleigh, 96; Weldon and Florence, 85.

— Mullins, (S. C.) correspondence: "Tobacco prices are just about half what they were last season, but about the same as two years ago. The common grades as "sand lugs" are selling from 4 to 6 cents a pound and some at low as 2 cents. The American Tobacco Company is the only buyer on the market and hence dictates the prices."

Death of An Aged Lady.

Friends will regret to learn of the death of Mrs. Mary Ann Yates, who passed away at 2 o'clock yesterday afternoon at the County Home. She was 78 years of age and had been very feeble for some time. She leaves a son, Superintendent Jno. T. Yates, of the fire alarm system, and Mrs. C. E. Wood, both of this city. The funeral will be conducted to-day from the residence of the daughter-in-law of the deceased, Mrs. Walter Yates, No. 1007 North Seventh street, by the Rev. J. L. Vipperman and the interment will be in Oakdale.

VETERANS OF FISHER

Grand Reunion of the Survivors of the Memorable Battle in Sixty-five.

THE MEETING LAST NIGHT.

Railroads Offer Reduced Rates—Col. William Lamb, Mr. Eugene Martin and Others to Speak—Arrangements in Progress.

As the date approaches for the reunion of veterans at Fort Fisher, the committees of arrangement are becoming more and more active and reports seem to indicate a grand success. A meeting of the committees was held last night at the office of President H. C. McQueen, of the Murchison National Bank, and plans were very generally discussed.

It was reported that all railroads had agreed to give a special rate of one fare, plus 25c., for the round trip, to all who desire to attend and that tickets on that account would be sold on Aug. 9th, 10th and 11th, with final limit Aug. 16th. The steamer "Wilmington" has given a rate of 50c. to Fort Fisher and return on that date. The boat will leave at 9 A. M., Wednesday, Aug. 12th, returning in the afternoon at 5 o'clock. The committee requests that hotels and boarding houses take the visitors upon the occasion of the reunion at special rates.

General N. M. Curtis, of Newbury, N. Y., who led the assault upon Fisher; Col. William Lamb, of Norfolk, Va., who commanded the garrison, and Eugene S. Martin, Esq., of Wilmington, have been asked to deliver short addresses at the fort. There will also no doubt be other speeches by prominent men who took part in the engagement. Indications are that there will be a large gathering.

Col. W. J. Woodward, commander of Cape Fear Camp, United Confederate Veterans, of this city, who has long cherished the idea of a reunion and the ultimate conversion of the grounds into a National reservation, has had prepared by Civil Engineer Lewis B. Hatch, of Wilmington, a comprehensive map of Fort Fisher, and the STAR is indebted to Col. Woodward for a copy of the same. The map shows the present physical condition of Federal Point; also, position of the land and water forces Jan. 13, 14 and 15, 1865. The map is a valuable one and to Col. Woodward and Mr. Hatch the survivors of that memorable engagement are due a debt of great gratitude.

LOCAL MARINE INTELLIGENCE.

Ships That Came and Went Yesterday. British Steamer Aground.

British schooner "Lillie," Capt. Davis, arrived at quarantine yesterday from Cienfuegos and will proceed to Wilmington for cargo.

Schooner "Arthur V. S. Woodruff," which arrived Saturday, has cargo of coal for the Coal, Cement and Supply Co., and will receive cargo of lumber for Porte-de-paix, Haiti.

Schooner "Islesboro," cleared Saturday with cargo of 16,100 cross-ties, consigned by the Standard Pole and Tie Co. While passing down the river, near Orton, she sheered from the channel and went slightly aground but floated on next tide and proceeded to sea from Southport at 7 A. M. yesterday.

Schooner "Emma Knowlton" arrived up Sunday with cargo of coal from New York for J. A. Springer & Co. and after discharging will receive cargo of lumber from the Kidder Lumber Co. for Mayaguez, Porto Rico. The "Knowlton" has traded here before and her popular master, Capt. Hudson, is well remembered and is being cordially greeted by his friends on the wharf.

The British steamer "Undaunted," which arrived Saturday with cargo of kainit for the Virginia-Carolina Chemical Co., is still ashore at Bulk Head Shoals, five miles down the river, tug boats having failed to get her afloat without lightering the cargo, which is now being done by Capt. Edgar D. Williams. The steamer expects to proceed up to the factory here to-day.

Death of Mrs. E. Manning.

Mrs. Elizabeth Manning, widow of the late Lewis Manning, died yesterday afternoon at 4 o'clock at her home, No. 117 Wright street, at the advanced age of 68 years. She had been in poor health for some time and, while her death was not altogether unexpected, it came as a source of much regret to her friends. Mrs. Manning is survived by three daughters and one son, who have the sympathy of friends in their bereavement. They are Miss Agnes Manning, Mrs. Hettie C. Carroll and Mrs. Sarah Simpson, of this city, and Mr. T. L. Manning, of Ocnuly. The remains will be taken on the 6 o'clock train this morning to Freeman's Cross Roads for interment.

Capt. Jas. D. McNeill Here.

Capt. James D. McNeill, president of the State Firemen's Association, returned to Fayetteville yesterday after having spent a couple of days in the city in conference with Secretary W. C. VonGlahn relative to the forthcoming annual meeting and tournament in Durham, Capt. McNeill is enthusiastic over the prospects and expects a large attendance. The prize list for the tournament is a strong one and the number of entries will be large.

IN THE MUNICIPAL COURT.

Imposing Array of Saturday Night Offenders--Man Who Was "Drowned." Appeal to Higher Authority.

Mayor Springer had a variety of offenders in his court yesterday, most of whom were brought in Saturday night. Some were old, some young, some good, some bad and others indifferent. The Mayor was suffering with a severe attack of neuralgia and when that fact was announced just before court convened, some of the old-timers in the prisoner's box quaked in their boots. However, the chief executive was lenient in most cases and only in one or two instances were the fines steep enough to cause default and the consequent sentence to the roads.

Tom Williams and Kate Smith, colored, were arrested for general disorder and fighting in the neighborhood of Fourth and Church streets. They were each fined $20 and costs, in default of which they went out to the roads for 30 days in the afternoon.

J. Ell Herring, who with his brother furnished the leading story for the Sunday morning papers in the miraculous escape from drowning after being run over by a passenger barge in the river near foot of Dock street, was arraigned upon the charge of being drunk and down at Ninth and Brunswick streets. He said he had been to the hospital to see his brother, who was capsized with him in the boat on the river; that he fell in with one or two friends, took several drinks, and when he went to sleep his companions left him. Mayor Springer, in imposing a fine of $5 and costs upon Herring, said he was disposed to be lenient with the man, considering that he had come so near being ushered into another world. Herring couldn't pay the fine and went to the roads for 10 days.

Louis Howard, colored, charged with disorderly conduct in racing a transfer wagon over "Brooklyn" and using loud and boisterous language, was fined $5 and costs.

Andrew Spellman, colored, charged by Nathan Murray, colored, with having drawn a knife upon him at the merry-go-round, Seventh and Queen streets, was found not guilty and discharged.

Henyard Bordeaux, a young white man, arrested by Policeman G. R. Holt near Sixth and Castle streets, Saturday night, was charged with disorderly conduct. He introduced several witnesses to substantiate his version of the affair and when the Mayor fined him $5 and costs, he appealed to the Superior Court and gave bond in the sum of $100.

H. Tietgen, charged with being "asleep at the switch," was fined $5 and costs. Geo. Silvey, drunk and down, paid a fine of $10 and costs. Myers McNeill, colored, just arrested for an "innocent drunk" on Market street, was let off with the cost.

A. H. Wilkins, an excursionist from Johnson county, pleaded guilty to the charge of being drunk and was let off with the costs. R. Ottoway, white, also pleaded guilty to "taking too much," was very penitent and escaped with the costs.

TOBACCO SALES YESTERDAY.

More Than 50,000 Pounds of Yellow Leaf Were Sold Here Yesterday.

There was another large sale of tobacco at the Wilmington warehouse yesterday and it is estimated that between 50,000 and 60,000 pounds of the yellow leaf exchanged hands. As on previous sales days, the quality of the weed was generally poor, but the prices are said to have averaged about six cents. As the season advances, however, the quality of the weed will grow better and better and the prices will advance accordingly.

The attendance upon the sale yesterday was not large. Owing to the extreme heat few people cared to walk the four blocks from the car line for curiosity's sake and as most of the tobacco sold was received by freight shipments, few growers were in attendance. Mr. J. N. Gibbons was the auctioneer and he got over the floor in a hurry. The bulk of the purchases was by Mr. A. B. Bray for the American Tobacco Co., though a number of independent buyers entered with much spirit into the bidding.

The sales will continue every day this week except Saturday. Consignments of tobacco continue to arrive and the warehousemen are really confronted with the problem of keeping the weed on and off the floor with sufficient dispatch to make ready for the new shipments.

MORE LIGHT FOR THE BEACH

The Consolidated Railways Co. Installing Electrics at Popular Wrightsville.

The Consolidated Railways, Light and Power Co., is installing thirty special pole lights along the board walk at Wrightsville beach, thereby adding greatly to the convenience of pedestrians and the beauty of the resort at night. Those are in addition to the regular station lights, which have been the only illumination for the long walk during past seasons.

On this week's New York steamer the company is expecting six additional arc lamps which will be placed on poles along the beach at the water line on high tide and at the Seashore Hotel station where the cars arrive and depart. The current will be furnished from the sub-station at Wrightsville.

VETERINARY BOARD.

State Examiners and North Carolina Association Now in Session Here.

ORGANIZED LAST NIGHT.

Dr. Tait Butler, President; Dr. T. B. Carroll, Secretary and Treasurer. Three Applicants for License. Subjects of Examination.

The first annual meeting of the State Veterinary Examining Board, of North Carolina, was called to order last night in the handsome lodge room on the third floor of the Elks' Home, on North Front street, and an organization was effected by the election of Dr. Tait Butler, State Veterinarian of Raleigh, as president, and Dr. T. B. Carroll, of Wilmington, secretary and treasurer. All members were present at the meeting, including the above, as follows: Dr. J. W. Petty, Greensboro; Dr. T. B. Carroll, Wilmington; Dr. B. L. Griffin, Concord; Mr. W. C. McMackin, Raleigh, and Dr. Tait Butler, Raleigh.

The Examining Board for veterinarians was created by act of the last Legislature, the appointments having been made by the Governor. It is the duty of the Board to meet annually for the examination of applicants for license to practice the profession, keep a record of all such, publish the names of all successful applicants and exercise a general supervision over veterinary surgery and medicine in the State. Persons heretofore practicing veterinary medicine or surgery are required to register by 1905. The act does not apply to regular doctors nor to persons practicing without fee.

The meeting last night was very enthusiastic. Three applications for examination were received and the papers will be submitted this afternoon at 2:30 o'clock in the Elks' Home. Members of the Board have been designated to conduct the examination upon the subjects assigned as follows:

Dr. Carroll—Anatomy and Physiology.

Dr. Petty—Chemistry, Malteria Medica and Therapeutics.

Dr. Butler—Pathology, Bacteriology and Sanitary Medicine.

Dr. Griffin.—Surgery and Obstetrics.

Mr. McMackin—Practice of Medicine.

After the meeting last night members of the Board and a large number of other veterinarians in the city for the meeting of the State Veterinary Association to day were entertained by Dr. Carroll with a complimentary trolley ride to the beach.

The State Veterinary Association, which met last year in Charlotte and organized by electing Dr. Carroll, of this city, president; Dr. Petty, of Greensboro, vice president, and Mr. W. C. McMackin, of Raleigh, secretary and treasurer, will hold its second annual sessions in Wilmington, beginning this morning at 10 o'clock and continuing through to-morrow. One of the features of the convention will be an address by Hon. T. E. Whitaker, of Oak Ridge, N. C., who was a member of the last Legislature and so ably championed the bill incorporating the State Association and establishing the Examining Board. The veterinarians are a distinguished looking body of men and Wilmington is glad to have them in her midst.

REQUIEM HIGH MASS.

Impressive Service Yesterday Morning at St. Thomas' in Honor of Pope Leo.

Requiem High Mass for the repose of the soul of the late Holy Father, Pope Leo XIII, was celebrated at St. Thomas' pro-cathedral in this city at 9 o'clock yesterday morning, Rev. Father C. Dennen having been the celebrant. The service was one of the most solemn and impressive in the history of the church and a large congregation was present.

During the course of the service Rev. Father Dennen delivered an able and beautiful discourse upon the life and character of the Holy Father and read some of the Pope's great productions.

The music for the mass was by Gnasse and was sung by a choir composed of Mr. H. K. Holden, Mr. J. W. Reilly, Mrs. J. D. Edwards, Mr. R. C. Banks, Mrs. Jos. H. Watters, Miss Flossie Watters, Miss Mary Higgins, Mrs. James J. Allen and Miss Katie Carroll, with Mr. James Owen Reilly as organist.

Jumped and Was Injured.

Thomas G. Register, a mill wright, living at 806 Princess street, in attempting to jump from suburban car No. 39, upon which he was returning from Wrightsville early Sunday night, was thrown violently to the macadam street by the momentum of the car and suffered a severe contusion of the forehead and one or two bruises about the body. Mr. Register asked Conductor W. E. Beaton if he could stop at Eighth street, but received the reply that stops were only made at Ninth, Seventh, Fifth and Third streets. Mr. Register thought he would jump from the car in front of his home, but he misjudged the velocity and was thrown as stated.

— Wilmington shipped four solid car loads of canteloupes last week and another car yesterday. Prices are said to be generally satisfactory.

GRAND MID-SUMMER WEEK

Inaugurated Last Night by Consolidated Company—Splendid Troupe of Entertainers at the Casino.

Although the weather was a bit threatening, a large crowd last night went down to Wrightsville beach for the inauguration of the grand Mid-Summer week which will be distinguished by special features, announced daily, until Saturday night. The largest crowd went down on the regular car and trailers at 8 o'clock, music having been furnished en route and at the pavilion upon arrival by the Delgado Band, which is an excellent one for the length of time it has been organized. The low, round-trip rate of 25c. prevailed and the people seemed to appreciate the reduction.

The chief attraction was, of course, the opening bill by the New York vaudevillians at The Casino. There was some disappointment locally because Joe Conlon, the Irish comedian well known in Wilmington, did not put in an appearance but the remaining members of the company well sustained the advance notice of their capabilities as first-class entertainers. The theatre was filled and not a discordant note was heard in the volume of praise given. The performance opened with a laughable farce by "Billy" Hill, entitled "All a Mistake," and introducing the entire cast.

The Rooney sisters proved themselves clever singers and dancers, and Phil. Staats, the comedian and pianist, was described as being "great." The Southern trio, Hill and Edmunds and cute little Baby Florence, closed the performance in a lively vaudeville treat. The company will be seen again each night throughout the week.

BIG PICNIC AT ROOK'S.

Many Wilmingtonians Will Go Up the A. & Y. Road for a Frolic To-morrow.

Capt. Herbert Ward was in the city last night and said all arrangements had been completed for the big picnic at Rook's, up the A. & Y. road, to-morrow, Wednesday, 29th. Many people from Wilmington will attend, going up on the morning train at 9:10 A. M. and returning the same evening. A low round trip rate will be in effect and a pleasant day in every way is assured. An Italian band has been engaged to furnish music for dancing, which will be in progress all day and young people for miles around will be there to participate in the festivities. For those who desire to fish, there will be lots of bait on the ground and excellent water for that sport. Refreshments will be served at city prices. No better way could a hot Summer day be spent than in enjoying the big annual picnic at Rook's.

TUESDAY MORNING, JULY 28

DO-NOTHING CUSTOM HOUSES.

New York *Tribune*: Nathaniel Hawthorne once pictured—in the preface to "The Scarlet Letter"—the joys of life in a neglected, cobwebbed custom house: No retreat can be more tranquil than the collector's office at some decaying, moss-grown entry port. No labor can be less exacting, no sinecure more comforting, than that which falls to the federal employe who stands guard over some unvisited harbor, burdening his ledgers with only one or two stray invoices each year. What a haven of rest! What a castle of indolence!

Hawthorne's playful description could have excited only a smile of indulgence when it was written, years ago. We are fiercer reformers now. Treasury economists shake their heads to-day at a port of entry whose wharves remain untenanted. They look askance at a collectorship which does not and can not pay its own way. We are not surprised, therefore, to find an Argus-eyed Auditor of the Treasury thundering at the folly of maintaining do-nothing custom houses and demanding the abolition of sinecures even more inviting than those which Salem had to offer in Hawthorne's day.

It is indeed a grotesque showing which the Auditor for the Treasury Department is able to make. He has on his list a dozen custom houses whose cost of maintenance is fabulously disproportionate to the revenues they bring in. At Yaquina, Ore., for instance, it costs $1,034 a year to pay officials whose collections for the last five years have averaged just 40 cents a year. At Cherrystone, Va., $971 is spent each year to insure collections also averaging 40 cents. Receipts at Annapolis, Md., are $6 a year, while expenses are $1,155; and at Teche, La., $3,047 has been expended annually, while only $40 has been taken in.

Mr. Andrews, the Auditor, reports that there are at least thirty-two different methods of computing the pay of the revenue officers stationed at ports of entry, and he suggests that some fixed and uniform rate be established by Congress. In his opinion it might also be well to close some of the minor custom houses whose business could be done at neighboring ports of entry. Congress may or may not show much zeal to abolish the sinecures Mr. Andrews complains of. The amount saved to the Treasury by closing a half dozen moss-grown custom houses would be almost infinitesimal. State pride has had much to do with creating these smaller and little used ports of entry, and it has been the government's settled policy to establish a collectorship—especially in the interior States—wherever a fair claim could be made to entry privileges. Congress will be slow, therefore, to close ports thus created, however unprofitable they may prove for the time being as collection agencies.

Perhaps the best means of ridding the customs service of these fantastic sinecures would be to classify the minor collectorships on some such basis as the smaller Presidential postoffices are now classified—making the salaries proportionate, above a certain point, to the business transacted. It may be that no great waste is entailed under the present system. But certainly, in the name of good administration, some of its more absurd incongruities should be rectified.

WHAT TO DO WITH THE IMMIGRANTS.

Philadelphia *Press*: The troublesome question as to what to do with the immigrants whoare flocking to the United States is agitating the public. The immigration for the fiscal year ending June 30, 1903, was the largest ever known in twelve months, and it promises to be as large or larger during the present fiscal year. Stricter laws may winnow it some, but it is doubtful if they can materially lessen it while the present era of prosperity continues. It may help to solve the problem if some systematic and far-sighted effort is made to dispose of the immigrants after they reach these shores.

Of the 857,046 immigrants who came to the United States last year 572,726 were from Austria-Hungary, Italy and Russia. They are nearly all of the peasant class, and if settled on farms and in the rural districts would soon become valuable additions to the population of this country. In the main they are industrious and tractable, and with a little time and training would readily drop into American ways. But the trouble with this class of immigrants is that it settles almost wholly in cities, crowding the slums and adding to the poverty and crime of large communities.

In an article printed in the Chicago *Chronicle* it is urged that a comprehensive effort be made to bring to the attention of the Italian immigrants especially the advantages of farm life in America, and its great superiority over a similar career in Italy. These Italians are acquainted only with agricultural methods in their own country, where the farm laborers live in communities and go out each morning to labor for a pittance on the surrounding farms, returning late in the evening after a day of the severest drudgery. Of the satisfaction of living on a farm, either hired or owned, they know nothing. And one way proposed to dissipate this ignorance is for farmers needing help to take an Italian family on his farm, where their industrious, intensive, painstaking methods would soon add largely to the farm's producing power.

Some plan like this would work a permanent solution of the problem. The growing difficulty of getting good farm hands is a constant embarrassment to the agriculturist. The immigration from Germany and Ireland once supplied this want. But that has largely ceased, the immigrants from those two countries last year numbering less than 60,000. If the Italian, Russian and Austrian immigration can be turned into this vacant channel the cities will be relieved of a pressure of unskilled labor and farmers will be supplied with the help they need. A systematic effort should be made to see if this cannot be accomplished.

The *Atlantic Monthly* for August is on our table. As usual, it is an interesting number of that ever popular magazine. Houghton, Mifflin & Co., publishers, Boston, Mass.

CURRENT COMMENT

—— The general public will not concur with the judge. It will not admit that the manufacturer, even when he has a monopoly, should be allowed to dictate the price of goods after they have passed out of his possession and thus to prevent wholesome competition between the retailers, and to refuse to sell to a retailer who prefers to manage his business in his own way and cut prices when it seems to his advantage to do so.—*Chicago Tribune.*

—— But public losses in this great fall are small. It is a "rich men's panic," if the word panic is applicable to current conditions, which we doubt. The banks are determined to prevent another pinch like that of last Autumn, and as the speculation in stocks is killed effectually for the present, general business will be taken care of in its monetary needs. Meanwhile the men who reared the structure of inflation in values on insufficient foundations are paying the cost.—*Boston Transcript.*

—— Under the new Indiana divorce law, which has just gone into effect, a decree of divorce in Indiana will not be quite as attractive for matrimonial misfits as a decree in South Dakota. An Indiana divorce hereafter will simply mean a legal separation for a limited time, during which the parties must live apart and cannot reunite in marriage. The Indiana experiment in limited divorces will be watched with a great deal of interest by inharmonious households. The new departure in restricted uncoupling was acopted through the influence of several societies of women who have reform proclivities and emotional tendencies, and it may be hoped the practical workings of the reform will not prove disappointing.—*Omaha Bee.*

How Trees Differ as to Their Roots.

Trees whose roots are of the same length and fiber do not thrive as well as those which are unequal, because they develop better when their roots reach for nutriment in different strata or depths of the earth. The oak could not live in soil where the pine would thrive luxuriantly. This is owing to the nature of the trees. One requires the most solid nutriment. The pine requires light, sandy soil and the atmospheric conditions of sunshine and rain. The oak, maple, elm, hemlock, birch and beech all require warm and clean soil. Trees are noted for picking out the attractive places, and where there are flourishing forests may be found the best land and the soil always productive.

A Satirical Reward.

There was perhaps more satire than gratitude in the reward bestowed by a French lady on a surgeon for bleeding her—an operation in which the lancet was so clumsily used that an artery was severed and the poor woman bled to death. When she recognized that she was dying, she made a will in which she left the operator a life annuity of 800 francs on condition "that he never again bled anybody as long as he lived."

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equalled. COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, July 27.—The cotton market opened firm at unchanged prices to an advance of six points with firm cables, but after a brief interval of hesitation rather than strength turned easier and during the balance of the session while irregular displayed a generally declining tendency. In addition to the cables the early firmness was assisted by the rather unfavorable showing of the early map, which reflected no rains of consequence in Texas and the trade were also rendered somewhat anxious by the report that about 9,000 bales of cotton had either been destroyed or injured by a fire in a Brooklyn warehouse. Later, however, it became known that the amount of cotton was involved in a deal. The Liverpool cables also turned easier and later reports drifted in of good rains in the western belt, which shortly after midday received official confirmation. Following the initial firmness the market was quiet during the forenoon. There was little or no support and as the session progressed offerings became more liberal. July which at first opened at 13.30 and sold at 13.33, was depressed to 13.10, and August after selling at 12 40 or eight points over Saturday's close, was forced down to 12 10 under realizing. September was weak all day. Opening at 10.65 it sold down to 10.52 and the later months also attracted general pressure. Toward the close the market was the most active of the session and while the list was firmly steady, prices were at the lowest of the session or at a net decline of five and thirty points. Sales were estimated at 90,000 bales.

Rheumacide

Continues to make Miraculous Cures

READ THIS LETTER:

ALMOST A MIRACLE.

DILLON, S. C., Aug. 18th, 1902.

Gentlemen:—In September, 1899, I took rheumatism in a very bad form. In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly drawn, so much so that I could not use them. My legs were drawn back until my feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shriveled up. I suffered death many times over. Was treated by six different physicians in McColl, Dillon and Marion, but none of them could do me any good, until Dr. J. P. Ewing, of Dillon, came to see me. He told me to try your "RHEUMACIDE." He got me one bottle of the medicine and I began to take it and before the first bottle was used up I began to get better. I used five and a half bottles and was completely cured. That was two years ago, and my health has been excellent ever since. Have had no symptoms of rheumatism. I regard "RHEUMACIDE" as by far the best remedy for rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them.

Will say further, that I began to walk in about six days after I began to take "RHEUMACIDE," with the aid of crutches; in about three months after I began to take it, I could walk as good as anybody, and went back to work again.

Very truly, JAMES WILKES.

A FATHER'S GRATITUDE.

Many a Family in Wilmington will appreciate the following.

Many a strong man and many a healthy woman has much for which to thank father and mother. The care taken during their childhood brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain it is oftimes called a habit. It is not the children's fault—the difficulty lies with the kidneys, and can be readily righted if taken in the proper way. A Wilmington parent shows you how.

J. T. Ebert, of 515 South 6th St., mattress maker, says: "I used Doan's Kidney Pills in my family. My little girl complained of severe pains in the small of her back, and the kidney secretions were dark and full of brickdust sediment. We were very much worried about her and when I learned of Doan's Kidney Pills I went up to R. Bellamy's drug store and got a box and gave them to her. Since using them she has improved wonderfully and is a different child. Her kidney secretions cleared up, she does not complain of her back, and in fact Doan's Kidney Pills gave her new life." We are very much pleased with them and you can use my name and welcome."

OFFICE OF D. H. HARDY, Secretary of State, AUSTIN, Tex., Nov. 21, 1900.

I have found Dr. Moffett's TEETHINA a splendid remedy and aid for my teething children. When my oldest boy was a teething child, every succeeding day warned us that we would inevitably lose him. I happened upon TEETHINA, and began at once administering it to him; and his improvement was marked in 24 hours, and from that day on he recuperated. I have constantly kept it and used it since with my children, and have taken great pleasure in sounding its praises to all mothers of young children. I found it invaluable even after the teething period was passed. MRS. D. H. HARDY.

Clerk at the Speaker's Desk.

The speaker's right hand man is called "clerk at the speaker's desk" and is one of the most useful men in the house of representatives. It is his business to know things, all things; in fact, everything connected with legislation. He must know parliamentary law, precedents of the house and must have them ready at a second's notice, so that they may be cited by the speaker or the chairman of the committee of the whole house whenever a point of order is raised or a parliamentary point is to be decided. He must know all the members of the house and from what state they come in order to tell the speaker or the chairman how to recognize them when they address the presiding officer. He must know all the secretaries of the president and clerks of the senate, so as to tell the presiding officer when there is a message from the president or the senate to be received by the house. He keeps the time on men who are addressing the house, and the "hammer" falls when he says that a man has consumed his allotted time. Of all these tasks the greatest is to be well informed upon parliamentary law. There is no index to parliamentary rulings, and many points are found by the man who will delve and dig and study the subject all the time.—Washington Post.

Infant Geniuses.

When he was but a schoolboy in the Jesuits' college at Dijon Jacques Bossuet was known as one of the best classical scholars in Europe.

At eight Louis de Bourbon, prince of Conde, was a perfect Latin scholar. Three years later he published a work on rhetoric, and at seventeen he was appointed governor of Burgundy.

Fenelon displayed so much precocity that he won fame as a preacher of rare eloquence when he was but fifteen years of age. Pascal wrote treatises on acoustics at twelve, at which age he was busily occupied in constructing elaborate circulating machines, and at sixteen he published his treatise on "Conic Sections," which Descartes refused to believe was not the work of a great master.

John Stuart Mill was studying Greek at three, had practically mastered the language at seven and a year later was acting as schoolmaster to his younger brothers and sisters. John Ruskin actually produced a manuscript work in three volumes before he reached his seventh birthday.

Mark Twain In a Fog.

Mark Twain's former lecture manager told this story of an entertainment given by the humorist in London during a heavy fog: "One night the queen's concert rooms were like a smokehouse, and I saw from my chair in the royal box a shadowy dress coat, supported by a pair of shadowy trousers, girdled by the faint halo of the ineffectual footlights. A voice was in the air, but it was difficult to locate it with any degree of certainty. The apparently headless trunk of the lecturer told what he knew of our fellow savages, the Sandwich Islanders, and at intervals out of the depths ascended the muffled murmur of an audience invisible to the naked eye. Mark began his lecture on this occasion with a delicate allusion to the weather and said, 'Perhaps you can't see me, but I am here.'"

Corn Breeding Fields.

In breeding corn a small field usually an acre in size is used. The land is prepared and the seed bed treated as for the ordinary field. They are usually about 120 hills long and thirty rows wide. Each row is planted from a separate ear. The barren stalks, poor stalks and all undesirable stalks, such as suckers, are removed before the tassel appears. The field is protected or isolated, so that no mixture can take place from other varieties or from any source. In the fall these rows are husked separately, and the seed for the next year's crop is selected from the rows giving the highest yields per acre, of best composition, with the least barren stalks and of the best type. In this way the yield per acre of the variety is increased, the quality improved and the type preserved and developed. By this plan we are able to give personal attention and direct selection to the individual stalk and ear, which would be impossible in a large field.—Cosmopolitan.

A High Priced Fricassee.

Lord Alvanley, a noted wit and high liver in England a hundred years ago, insisted on having an apple tart on his dinner table every day throughout the year. On one occasion he paid a caterer $1,000 for a luncheon put up in a basket that sufficed a small boating party going up the Thames. Being one of a dozen men dining together at a London club where each was required to produce his own dish, Alvanley's, as the most expensive, won him the advantage of being entertained free of cost. This benefit was gained at an expense of $540, that being the price of a simple fricassee composed entirely of the "noix," or small pieces at each side of the back, taken from thirteen kinds of birds, among them being 300 snipe, 40 woodcocks and 20 pheasants—in all about 300 birds.

A Cool Soldier.

Remarkable for his self possession even in the most trying moments of battle was the famous Marshal MacMahon. One day he was dictating a letter to his secretary in the midst of an action when a shell from the enemy's camp fell directly upon his tent and exploded within a few feet. Pale with fright, the secretary sprang up, leaving his letter.

"What's the matter?" asked the marshal.

"The shell," gasped the frightened subordinate.

"And what has the shell to do with the letter you are writing? Go on with your work, sir."

Bay Rum.

Bay rum is manufactured from the dried leaves of Pimento acris. Bay rum is procured by distillation and this in a very simple manner. The leaves are picked from the trees and then dried. In this state they are placed in the retort, which is then filled with water, and the process of distillation is carried on. The vapor is then condensed in the usual way and forms what is known as "bay oil," a very small quantity of which is required for each puncheon of rum.

The "FORCE" Food Company. BUFFALO, N. Y.

Massachusetts College of Pharmacy.

BOSTON, June 25, 1903.

The "Force" Food Company, Buffalo, N. Y.:

GENTLEMEN—A rumor having reached me that your product, "FORCE," contained injurious ingredients, I took the occasion to analyze it, in the interest of my own family and of some friends who are liberal users of it.

It may interest you to know that I found it consisted exclusively of Whole Wheat, Barley and Salt, and is absolutely free from any injurious elements whatever.

Permit me to express my sincere regret that such a serious and baseless rumor should gain footing with the public.

You are free to use this letter in any way that will help to do your product justice.

Yours truly,

WILBUR L. SCOVILLE.

Massachusetts College of Pharmacy.

BOSTON, June 30, 1903.

To Whom It May Concern:

At the invitation of The "FORCE" Food Company, of Buffalo, I have visited their Mills and made a careful examination of the materials from which "FORCE" is prepared, and the processes which convert it into its finished condition.

I found that "FORCE" consists exclusively of what my previous analysis indicated, viz.: Whole Wheat and Barley, with a flavoring of Table Salt, baked, cooked and sterilized by 300 degrees of heat.

A feature of the manufacture which impressed me considerably was the fact that the process is entirely mechanical, the food being prepared, cooked and boxed by machinery, without ever coming in contact with the hands or clothing of the mill operatives.

I was also gratified to note that an experienced Chemist daily supervised the entire output, and that each day's manufacture was also tested by an expert cook.

Signed, WILBUR L. SCOVILLE,
Professor of Theory and Practice of Chemistry.

The "Force" Food Company, Buffalo, N. Y.:

GENTLEMEN—In view of the rumors regarding the alleged adulteration of "FORCE," it has been a satisfaction to me to visit your Mills, investigate, and analyze your product.

You are free to publish this statement made over my signature, that I found "FORCE" to be absolutely pure, consisting solely of Whole Wheat and Barley, flavored with table Salt, and free from any injurious substance whatever.

I examined, in detail, the various steps in the manufacture of your product, such as the steam cooking, the flaking and the roasting, as well as the packing, and find all to be remarkably clean and of absolute healthfulness. The final roasting is done at a temperature above 300° F., which, with the steam cooking, completely sterilizes the product, and the entire process, from the first step to the final sealing of the package, is a mechanical one, the product at no time coming in contact with the hands or clothing of the persons handling the machines or packages.

Very respectfully,
HERBERT M. HILL,
Chemist to the City of Buffalo.

See page 148 of "Cereal Breakfast Foods," Bulletin No. 84, of the Maine Experiment Station, a State Institution, which has analyzed "FORCE" with other foods, in the public interests.

Copy will be mailed free on request.

Refer also to Canadian Government Bulletin 84 on similar subject, pages 6 and 29, for analysis showing that "FORCE" consists solely of the most wholesome and nutritious ingredients.

TUESDAY MORNING, JULY 28.

REVOLUTION IN COLUMBIA.

Attempt Made to Arrest the Governor, Who Escaped and Took Refuge at the House of an American.

By Cable to the Morning Star

WASHINGTON, July 27.—Consul General Gudger, at Panama, has made the following report by cable to the State Department of the episode at that city:

"Last night about ten o'clock, soldiers, headed by the commander-in-chief, searched the governor's house. The governor escaped. Tried to reach the consulate, but intercepted. Took refuge at the house of an American. Streets lined with soldiers. Arrested secretary of state, chief of police and departmental employes. Department has money."

Another dispatch was received today from Mr. Gudger, saying the governorship had been tendered, but it is not known to whom. He added that the situation is grave. Acting Secretary Loomis has decided to await further advices before taking action.

Mr. Gudger reported that "trouble arose because of the failure of the governor to pay national troops." Troops were withdrawn at 2 o'clock this morning.

THE ILLINOIS RACE RIOT.

City of Danville Guarded by Militia—No Disturbances Have Occurred Since Last Saturday Night.

By Telegraph to the Morning Star.

DANVILLE, ILL., July 26.—This city to-night is under military protection, and there have been no disturbances since last night. Four companies of the Seventh Illinois infantry arrived this morning from the State camp at Springfield. They are under the command of Lieut. Col. Closby, who has doubled the guard about the jail this evening. One hundred sentries now form a cordon about it.

SPRINGFIELD, ILL., July 27.—Adjutant General Scott to-day had a conversation by telephone with Lieut. Col. Closby, commanding the first battalion, Seventh infantry, I. N. G., regarding the jail at Danville this forenoon, in which Col. Closby said all was quiet in that city; that the mob had dispersed and that the work of repairing the jail was progressing and would be completed to-morrow. As a result of the report the adjutant general ordered companies A and B to return to Springfield this forenoon, leaving companies H and I at Danville.

HOTEL AT NAG'S HEAD

Totally Destroyed by Fire Sunday—Guests Lost All Their Effects.

By Telegraph to the Morning Star.

NORFOLK, VA., July 27.—The big Nag's Head hotel, at the North Carolina ocean resort of that name, was totally destroyed by fire yesterday afternoon. The hotel had 140 guests and all were saved, though Mrs. Jno. Z. Lowe, of Norfolk, wife of the proprietor, died afterward as the result of excitement. Mrs. Lowe had been a sufferer for some time from heart trouble. The guests lost practically all their effects, and some even lost what cash they had on hand, leaving them destitute. The crew of the United States life saving station near by rendered all possible assistance and the guests were cared for last night at the life saving station and by cottagers near by.

COURT ROOM PACKED.

Curtis Jett and Thomas White on Trial for the Marcum Assassination.

By Telegraph to the Morning Star

CYNTHIANA, KY., July 27.—Curtis Jett and Thomas White, charged with the Marcum assassination, were brought into court this morning guarded by six deputy sheriffs. Many visitors are here and the court room was packed. The work of securing a jury was begun, but many who were summoned were excused for various reasons. Attorneys for the defence filed a plea against the jurisdiction of the court on the ground that the special term would make one more than was provided for by the statutes. The judge overruled the plea. The court ordered that the militia will be used for only guarding the jail.

VIRGINIA RACE TROUBLE.

Excitement Near Blue Ridge—Threatened Conflict Between Whites and Negroes.

By Telegraph to the Morning Star.

ROANOKE, VA., July 27.—Serious trouble is threatened between the whites and blacks near Blue Ridge. Several nights ago a colored woman was whipped by a party of white men for insulting a lady during the absence of her husband. This angered the negroes to such an extent that they are arming themselves. Several blacks came to Roanoke to-day and purchased guns and ammunition. A telephone message to-night says the whites are armed and considerable excitement exists.

AN IOWA MOB

Searching for a Negro Charged With Assaulting a White Girl on Sunday.

By Telegraph to the Morning Star.

FARMINGTON, IOWA, July 27.—A mob of farmers early to-day began searching for a negro named Clark, who is accused of having assaulted and attacked with a razor Gertrude Hess, a white girl, on Sunday. It is thought the girl is fatally injured. The mob is now in the region of Medill and reports received here state that they have surrounded the negro in a hollow and it is only a question of a short time when he will be lynched.

HOOLEY LIABILITIES $3,000,000

The Basset Failure Unimportant—Market Showed Very General Improvement and Situation as a Whole Viewed With More Cheerfulness.

By Telegraph to the Morning Star

NEW YORK, July 27.—In spite of, or probably because of, the additional failures on the Stock Exchange—E. S. Hooley & Co., of this city, and Wm. Basset, of Boston—to-day's stock market showed very general improvement and the situation as a whole was viewed with more cheerfulness. The Hooley failure was regarded as an inevitable sequel to that of W. L. Stowe & Co., which came last Friday. The failure of Mr. Basset was wholly unimportant—one of the day's incidents.

The market displayed a hesitating tone at the outset, many of the railroad stocks showing fractional declines. Slight improvement soon followed, but prices fell off from one to three points in the active list with even greater declines in the specialities as soon as the Hooley failure came out. Evansville and Terre Haute, a Hooley specialty, declined 9½ points and the entire list reflected considerable confusion. By the end of the first hour the situation seemed well in hand and the prices advanced save in a few instances where pressure continued to be directed upon certain stocks.

The Basset failure, announced at noon, excited hardly any attention. So far as could be learned Mr. Basset had no outstanding contracts in this city.

Further improvement was shown by the market in the late session. Even Evansville and Terre Haute recovered all but a point of its early loss, Des Moines and Fort Dodge, and the Hooley stocks gaining four points.

While somewhat irregular at the close, the list made a number of material net gains. A few of the high class industrials made gains, notably the Westinghouse issues, five points, General Electric three, United States Steel common 1½c and the preferred 1½c.

On the other hand some other industrials finished the day with severe declines. Shares of the Rubber Goods Company and the United States Rubber Company, in which the firm of Talbot J. Taylor & Company is said to be interested, sold at better prices.

The assignee of Hooley & Company would make no statement for publication, and it was impossible to learn the extent of the obligations. In conservative circles the firm's liabilities are placed at about $3,000,000.

It is known that Hooley and company had offers of help from high quarters, but deemed it advisable to decline.

The firm of Hooley & Company, organized in June, 1902, consists of Edwin S. Hooley, Frank E. Brumley and Norther Heinsheimer. They acquired control of the Evansville and Terre Haute Railroad two years ago, Hooley and W. L. Stowe were the dominant figures in the Des Moines lease to the Rock Island road in 1887 for eighteen years.

PORTS IN MANCHURIA.

Arrangements With China for Opening New Localities to Trade.

By Telegraph to the Morning Star.

WASHINGTON, July 27. — While there has been a lull in the Manchurian negotiations during the past week, it is stated that up to this point satisfactory progress has been made and there is every reason to believe that before the first of September next a treaty will be ready for signature, which will define the trade opportunities of the United States in Manchuria. An authorized statement on the situation is as follows:

"The question of the opening of new localities to trade in Manchuria has been in substance satisfactorily arranged with the Chinese government, and nothing remains to be settled but the question of the date when said localities shall be opened. This naturally will be subsequent to the exchange of ratifications of the treaty in which the opening is agreed upon."

F. J. KIMBALL DEAD.

President of the Norfolk & Railroad Company, at Radnor, Pa.

By Telegraph to the Morning Star.

PHILADELPHIA, July 27.—F. J. Kimball, president of the Norfolk and Western railroad, died to-day at his home at Radnor, Pa., near here, aged 59 years. He had been in ill health since June 14th, suffering from a liver complaint.

Mr. Kimball entered the railway service in 1862 as a rodman, in the engineering department of a branch line of the Pennsylvania Railroad Company. After occupying various railroad positions he was in 1883 elected president of the Norfolk and Western Company. In 1896 the company went into the hands of a receiver, but at its later reorganization he was again elected president.

FALL RIVER MILLS.

About Fifteen Corporations Curtailing Production—One Million Spindles Idle.

By Telegraph to the Morning Star.

FALL RIVER, MASS., July 27.—Commencing to-day and continuing for one week, there will be about one million spindles idle in this city, and it is said during the month of August business will be dull. About fifteen corporations are included in this week's cessation of business and the claim is made that idleness is due to the high price of cotton. In all about 12,000 operatives are out of work for the week and eighty thousand pieces of print cloth are removed from the output. Local business is somewhat affected by the conditions.

FIGHT BETWEEN NEGROES

Over a Game of Craps in Church—Seven Wounded, Two Seriously.

By Telegraph to the Morning Star.

ATLANTA, G., July 27.—Reports received here from Camak, Ga., where it was reported last night that two negroes had been killed and many others wounded, as a result of a fight between negroes, state that only two negroes were seriously wounded and five others severely injured. The trouble originated over a game of crap-dice in a negro church, near Camak. Several negroes have been arrested.

THREE MEN KILLED AND OTHERS INJURED.

Explosion of an Ice Manufacturing Plant in New York City—Fumes of Ammonia Spread Through the Building.

By Telegraph to the Morning Star.

NEW YORK, July 27.—Three men are dead and several others injured as the direct result of the blowing out of a cylinder head of an engine attached to an ammonia pump in the Jacob Ruppert Brewing Company's ice plant on Alexander avenue early to-day.

One hundred and fifty men were at work at the time and as soon as the engine stopped working the ammonia flowed from the pump, the fumes spreading to all parts of the building.

Patrolman David J. Goss was overcome by the fumes while rescuing unconscious employes from the building and his injuries may prove fatal. The dead are: Otto Smith, engineer; Jno. Vincinski, fireman; Charles Carpenter, workman.

Up-stairs the smell of the fumes carried warning and the employes rushed to the roof, the narrow stairway delaying the few who were overcome.

The assistant engineer, Chas. Klatz, was on a platform over the engine when the explosion took place and jumped into a pit filled with oil underneath the engine, where he remained more than three hours, until discovered at half past 10 o'clock. He was unconscious and had been burned in the face.

Patrolman Goss heard the noise of the explosion and rushed into the building. Covering his head with a cap similar to a diver's helmet, he went into the engine room and dragged out the charred bodies of Smith and Vinscinski. Returning, he found two men, both unconscious, and carried them out, falling insensible himself in the doorway as he was about to enter the building once more. He was taken to the hospital.

By this time the firemen arrived and recovered their injured men. Men were taken from the roof with ladders. Because of the ammonia fumes it was impossible to enter the building until near 10 o'clock, when the ammonia was shut off.

Congressman Jacob A. Ruppert, the owner of the plant, and Engineer Friedman then went through the building and discovered the unconscious body of Assistant Engineer Katz. The damage to the plant is trifling.

MILLER RESUMES WORK.

Long Discussion Over the Situation in the Government Printing Office.

By Telegraph to the Morning Star

WASHINGTON, July 27.—There was a long discussion at a meeting to-night at Typhographical Hall of the situation arising over the reinstatement of W. A. Miller, the assistant foreman of the bindery in the Government Printing Office, who had been discharged because he had been expelled from the bookbinder' union. The meeting was attended by two representatives of the International Bookbinders' Brotherhood, Messrs. J. W. Dougherty, its general secretary, and J. A. Espey, the financial secretary-treasurer; by the presidents and secretaries of the various allied organizations represented in the government printing office, and also by President Gompers and Secretary Morrison, of the American Federation of Labor. After the meeting the statement was made that no definite action of any character had been taken and that the time had been consumed in discussion.

Miller resumed his duties to-day. He was assigned his work in charge of men who have been waging a vigorous campaign against him, but these men, acting under the decision of the union, continued to work technically "under protest."

THE CONCLAVE OF CARDINALS.

Assurances Given That Everything Will Be in Readiness by Next Friday Night.

CARDINAL GIBBON'S ARRIVAL.

Received With Great Cordiality—Has No Chance for Election—Fifty-two Cardinals Present at Meeting of Congregation Yesterday.

By Cable to the Morning Star

ROME, July 27.—Almost all the cardinals of the conclave have now arrived. Their time to-day was mainly occupied with a lengthy meeting of the congregation, which was notable for the cordiality with which Cardinal Gibbons was received. After the meeting the cardinals received numerous visits at their various residences. In well informed circles Cardinal Angelo di Pietro is being talked of as a compromise candidate in the event that Cardinals Oreglia, Gotti, Rampolla or Serafino Vannutelli are unable to secure the necessary votes. Should Di Pietro be elected Pope, he would, it is said, be the representative of the Rampolla-Gotti faction and yet would be fairly acceptable to all. Cardinl Michael Logue, archbishop of Armagh, who with the exception of Cardinal Gibbons, will be the only English-speaking cardinal in the conclave, arrived to-day from Ireland. He said he believed that the successor to Leo would be quickly chosen. In his case, perhaps, the hope is father to the thought, as he said he did not look forward with a great degree of pleasure to being shut up in the Vatican during the present hot weather.

Speaking of Cardinal Gibbons, the Irish cardinal paid him a glowing tribute, though, like all the prelates here he held out no hope that the American cardinal had the remotest chance of election. "Indeed," said Cardinal Logue, "I think Cardinal Gibbons would be a subject for commisseration if the selection should devolve upon him, for no American would care to spend the rest of his life confined within the precincts of the Vatican."

The Irish cardinal expressed the opinion that the question of sending a note to the powers protesting against the treatment of the Vatican by the Italian government should be left to the next pope.

To-morrow Cardinal Logue will pay an official visit to Cardinal Oreglia and then formally join the congregation.

It is now practically certain that all the cardinals will be present at the conclave except Cardinal Moran, archbishop of Sydney, who will not reach Rome in time, and Cardinal Celesia, archbishop of Palermo, who is too ill to attend. A proclamation was posted in the streets of Rome to-night inviting citizens to attend the annual commemoration of the death of King Humbert, which will take the form of a procession through the streets to the Pantheon. Early in the morning of July 29th under the auspices of patriotic and other societies, the Italians will visit the tomb of Humbert at the Pantheon and decorate it with flowers. Commemorative exercise at the capitol will follow. For this event King Victor Emmanual will return to Rome on Wednesday. "Queen Margherin" will arrive to-morrow. The ecclesiastics view the approaching ceremony with some alarm, believing that the anti-clericals may take advantage of the opportunity to make a counter-demonstration against the sympathy expressed all over Italy in connection with the death of the Pope.

The Vatican resembles an ant hill, so feverish is the work of preparing the part of the building set aside for the conclave. Before 1870 conclaves were held in the Quirinal Palace, one long wing of which was already without any special preparation. But in the case of the Vatican, apartments of three or four rooms for each cardinal have to be specially prepared, and as there are sixty-four cardinals the amount of work involved is very great indeed.

The Sistene chapel, as in the case of the last conclave, will be used for the meetings of the cardinals and the balloting then. There, after three solemn funeral services, which begin Tuesday, will be erected a throne for each cardinal. Over the thrones will be baldacchinos, or canopies, attached to the wall behind.

The moment a new Pope is elected he will lower his baldacchino as a token of his new dignity, thus silently announced. The Paulin chapel will be used for the celebration of his mass every morning of the conclave, while in the Sala Ducale will be movable altars for the masses to be celebrated every morning by each cardinal.

Assurances have been given that everything will be in readiness for Friday night, but there is much yet to be accomplished.

At to-day's meeting of the congregation fifty-two cardinals were present and all noticed the exceptionally cordial reception accorded to Cardinal Gibbons, who was visibly touched by it. He thanked all his colleagues and embraced Cardinal Satolli. The American cardinal has given no indication of his predelection in regard to the election of the new Pope, and has refused to see any newspaper men.

When the meeting of the congregation was over Cardinal Gibbons went to St. Peter's and prayed before the blessed sacrament. He then knelt before the resting place of the body of Pope Leo, and prayed for about fifteen minutes.

Cardinal Gibbons has appointed Father P. C. Gavan his conclavist, beside whom he will take only one servant into the conclave.

MANCHURIAN SITUATION.

English Papers Comment on Insulting Tone of Hartwig's Remarks.

By Cable to the Morning Star.

LONDON, July 28.—Manchurian affairs occupy a great deal of attention in the London papers this morning. Besides an interview with the Japanese minister, repeating the statements made at the Japanese legation last Friday to a representative of the Associated Press, to the effect that Japan's policy was to wait and watch the Russian developments in the East, all the dailies reproduce the Associated Press interview with Director Hartwig, of the Asiatic department of the Russian foreign office. The latter attracts serious comment. Comparisons are drawn between the peaceful and dignified attitude of the Japanese officials and the "insulting provocative character" of the remarks of the Russian director, whose statements are regarded as demanding a disavowal on the part of the Russian government.

SOLDIERS RETURN HOME TO-DAY.

Second Regiment Breaks Camp at Four O'clock This Morning—Review.

The Second Regiment, North Carolina National Guard, encamped at Morehead City, will have broken camp this morning before this paper has reached many of its readers. Reports from Morehead are that the soldiers have had a splendid outing and will return home refreshed and experienced. The official hour designated for breaking camp is 4 A. M. and the various companies will return in the same manner they went. The Wilmington and Maxton companies, regimental and Guard officers will arrive on the Newbern train at 12.40 o'clock this afternoon. The Maxton Guards will leave at 3:30 P. M., over the Seaboard Air Line for home.

Dress parade Sunday afternoon was a great feature of the encampment. Yesterday the troops were reviewed by Governor Aycock and staff and a ball at the hotel was given last night in honor of the chief executive and his party.

Lady Nearly Drowned,

Miss Gupton, of Rocky Mount, a member of one of the most prominent families in the State, who is a guest at Wrightsville Beach, narrowly escaped drowning in the surf yesterday evening about 6:30 o'clock. R. G. Grady, Esq., of this city, was in bathing at the same time and went to the rescue of the young lady. By heroic effort he succeeded in getting her ashore, where she was attended by a physician.

A. & M. Summer School.

Miss Mary Lou Powers and Miss Lou Faison returned yesterday morning from Raleigh, where they attended the Summer School being conducted for teachers at the A. & M. College. They are enthusiastic over the work being done there and report a very large attendance. Those attending the school are now issuing a very creditable daily paper, giving all the news about the work being done and other notes of interest to teachers.

CHICAGO STRIKERS.

Federation of Labor Assume Control and Continue Fight Against Kellogg Co

By Telegraph to the Morning Star.

CHICAGO, July 27.—After denouncing organized capital and the courts and police for the aid they have given the Kellogg Switchboard and Supply Company, the Chicago Federation of Labor has assumed control of the strike against the Kellogg Company and voted to assess its members $15,000 a month to maintain this struggle. Each of the three hundred thousand union men affiliated with the Federation is expected to contribute five cents a month. There are six hundred men on strike at the plant.

ENORMOUS CROPS.

All Railways in the South Placing Large Orders for Locomotives.

By Telegraph to the Morning Star.

ST. LOUIS, July 27.—The *Republic* to-morrow will say:

Almost without exception all the railway systems in the South and Southwest have placed large orders for locomotives, most of them to be delivered by the time the crops are to moved, but even with the additional equipment, it is believed that the enormous crop of wheat, corn and cotton will require much more motive power than is now available to get it to the market.

TWO MEN SHOT.

One Man Killed and the Other Fatally Wounded by a Police Officer.

By Telegraph to the Morning Star

BRISTOL, VA., July 27.—At Glamorgan, Va., a mining town near Bristol, Police Officer Wesley Hicks last night started to arrest David Dykes and Walter Fowler and shot and instantly Dykes and fatally wounded Fowler. He claimed to have acted in self-defence, saying that the men started to fire on him, but no weapons were found on their persons when picked up.
